

# Community Care Financial Assistance

No health insurance?

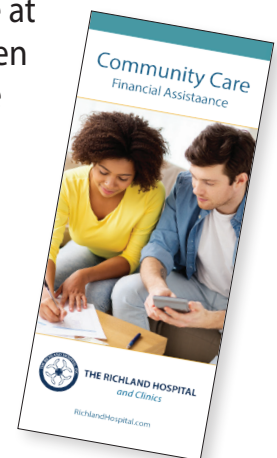

Or, do you have insurance but the out-of-pocket costs for your deductibles or co-payments are simply at a level that you cannot manage?

The Richland Hospital and Clinics may be able to help you.

Patients who meet financial eligibility requirements may qualify for help with their healthcare bills via discounts offered under the Community Care Program. You are eligible for consideration under this program if you are a patient treated at The Richland Hospital and Clinics (TRHC) or a patient receiving care at The Richland Hospital Clinic, Muscoda Health Center, or Spring Green Medical Center. There is a discounted/sliding fee schedule available based on family size and income. **No one will be denied access to services due to an inability to pay.**

For more information and detail about how to apply, please ask for a brochure from any of our locations, visit [RichlandHospital.com](http://RichlandHospital.com) or call the hospital's patient accounting office at 608.647.6321.

*Thank you for choosing The Richland Hospital and Clinics.*
